The Entac oil heaters provide a perfect solution for cold winter days. Due to their design featuring rollers, they are easy to move, thus they can always be used where some extra warmth is needed the most. It is equally suitable for heating both apartments and offices. Thanks to the adjustable heating modes and the built-in thermostat you can regulate the temperature the way you like. The product has overturn and overheating protection, in case of overturning or overheating the product switches off. Our oil heaters are available in 7, 9, 11 and 13 fin versions. The 1.5-meter-long cable provides convenient access to the power source.

You may find the detailed operating instructions in the box.

Entac has a number of different product categories that can be viewed at the [link](#) below.
